

Keighley Association of Engineers (2014-15 syllabus)

FOUNDED 1900

Keighley Campus - Leeds City College

Visit and talk at the new Industrial Centre of Excellence for Advanced Manufacturing & Engineering, including Fab Lab

Date: Wednesday 25 February 2015
Start time: From 7:00 pm for a prompt start at 7.30 p.m.
Location: At the College (*see address details overleaf*)

A new Industrial Centre of Excellence, bringing engineering training back to the Aire Valley, has opened its doors at Keighley Campus. The College has launched the Centre of Excellence for Advanced Manufacturing & Engineering (Creative & Digital Technologies), known as CE:AME. As well as a fully fitted workshop with high quality industry standard machinery, the Fab Lab, equipped with 3D printing, laser profiling and other 3D CNC machinery, has relocated to the College from its previous Dalton Mills home.

Dear members and guests,

The Keighley Association of Engineers is pleased to announce an extra event in the 2014 - 15 syllabus, a visit to the new Industrial Centre of Excellence (ICE) at Keighley Campus, Leeds City College. The visit fills an otherwise long gap between events, but I am sorry for the short notice.

The tour of the facilities is supplemented by a talk about the Fab Lab and a demonstration of its 3D capabilities. Please ensure early arrival at the main entrance for a prompt start at 7.30 p.m.

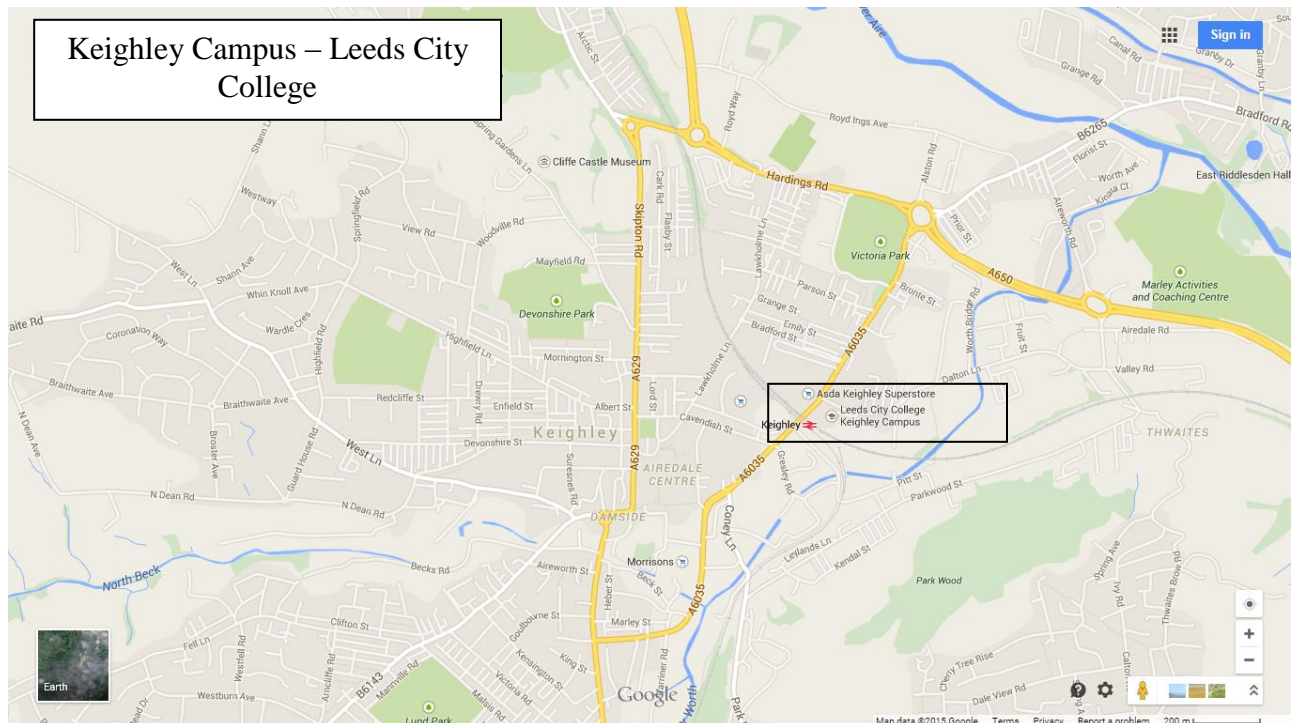

The visit will give us an early insight into this important development for the future education of engineers in Keighley and the wider Bradford area and is a promising renewal of the traditional link between the Association and our local college. I hope you will be able to support what I am sure will be a very interesting visit.

Bruce MacDougall
Syllabus Secretary

Talk venue address details:

Keighley Campus
Leeds City College
Bradford Road
Keighley
BD21 4HQ

Location map:

Check out the Keighley Association of Engineers website for details of future events.

We have updated our website and shortened the address to www.kaoe.org.uk please visit the site to see the new look – you will see that we have added Face Book and Twitter links – hope some of you will use these.

One of the improvements to the site is much easier editing facilities. If you have any photographs of recent events which are of compact form and can be emailed to me please do that and I will make sure they go on the new site.

Contributions to forthcoming site visits and lecture opportunities may be posted on the website. We look forward to your feedback.
