

## Keighley Association of Engineers Presents

An opportunity for the Keighley Association of Engineers to visit the long established Foundry Equipment manufacturer, A1 Roper Limited, has been arranged for 7.00pm on Tuesday 20<sup>th</sup> September 2011.

A1 Roper is an established leader in the design, manufacture, installation and lifelong servicing of specialist foundry equipment.

Established over 90 years ago as E A Roper Ltd and supplying products worldwide the company operates from premises on Worth Way, Keighley and is one of the longest established engineering companies to still operate from a base in the town.

Whether it's a Lip Pour Ladle or a Bottom Pourer, a Treatment Ladle or a Geared Drum Ladle, Ropers are able to provide a bespoke solution to customers needs.

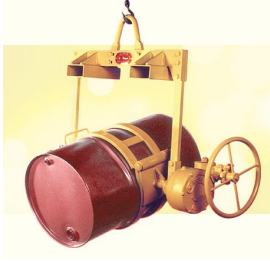

A1 Roper have also partnered with Balfour Beatty in their Zero Harm Initiative for industry-leading standards of health and safety and are proud to offer the World's first Zero Harm Certified Foundry Ladle. Footage of which can be seen on YouTube.

In addition to equipment used to for the handling of molten metals Ropers also design and manufacture a range of products for non foundry industries.

From barrel handling equipment to bunded tanks, access platforms to snow ploughs Ropers versatile workforce can turn their hand to most engineering challenges and whether it be a forging from its own blacksmith shop a large scale fabrication or CNC machined component the skills are their to get the job done.

We very much hope you can attend what promises to be an interesting tour of this long established company and although numbers are not limited we would appreciate those wishing to attend confirming so at the earliest opportunity (please call Paul Higson on 07817176383 or e-mail [higkar@aol.com](mailto:higkar@aol.com)).

A1 Roper Ltd is very easy to find being located a few hundred yards past Morrison's on Worth Way.

For a map or further details of the company please visit [www.a1roper.com](http://www.a1roper.com)

Many thanks

Paul
