**Dear members and guests,**

The Keighley Association of Engineers is pleased to announce its next event in the 2014 syllabus, a comprehensive talk by Mr Anthony Pilling on the history and development of key machinery in the Victorian age. The talk without doubt will be of interest to all members and will feature up to 100 slides accompanied by Anthony's wealth of knowledge on this specialist subject matter.

Anthony was born into an East Lancashire family of loom makers, weavers, joiners, blacksmiths, millwrights, farmers, teachers and architects. From 1963 he worked in and studied mill and foundry buildings, engines, machinery and textile engineering. He is now a heritage volunteer and an Industrial Buildings Advisor for the Heritage Trust for the North West (HTNW) looking after Higherford, Haslingden Grane and Burnley Oak Mount Mills. His heritage related work includes:

- Seminars and presentations on Textile Engineering, Architectural Heritage and Conservation
- English Heritage / LCC / OAN Lancashire Mills Study steering group member; Trustee, Ellenroad Trust Ltd; Member of ISSSES (International Stationary Steam Engine Society)
- Pilling Looms (Established 1819) - Loom, Textile Mill Engine, Machinery and Artefact identification, rescue, research, analysis, advice, conservation, repair and procurement for heritage museums and trusts
- Work with: Queen Street and Helmshore Mills, Derby, Galgate and Whitchurch Silk Mills, Trowbridge and Calderdale Museums, Bancroft Engine Trust, Context Weavers, Designer Weaving Company, London Cloth Company

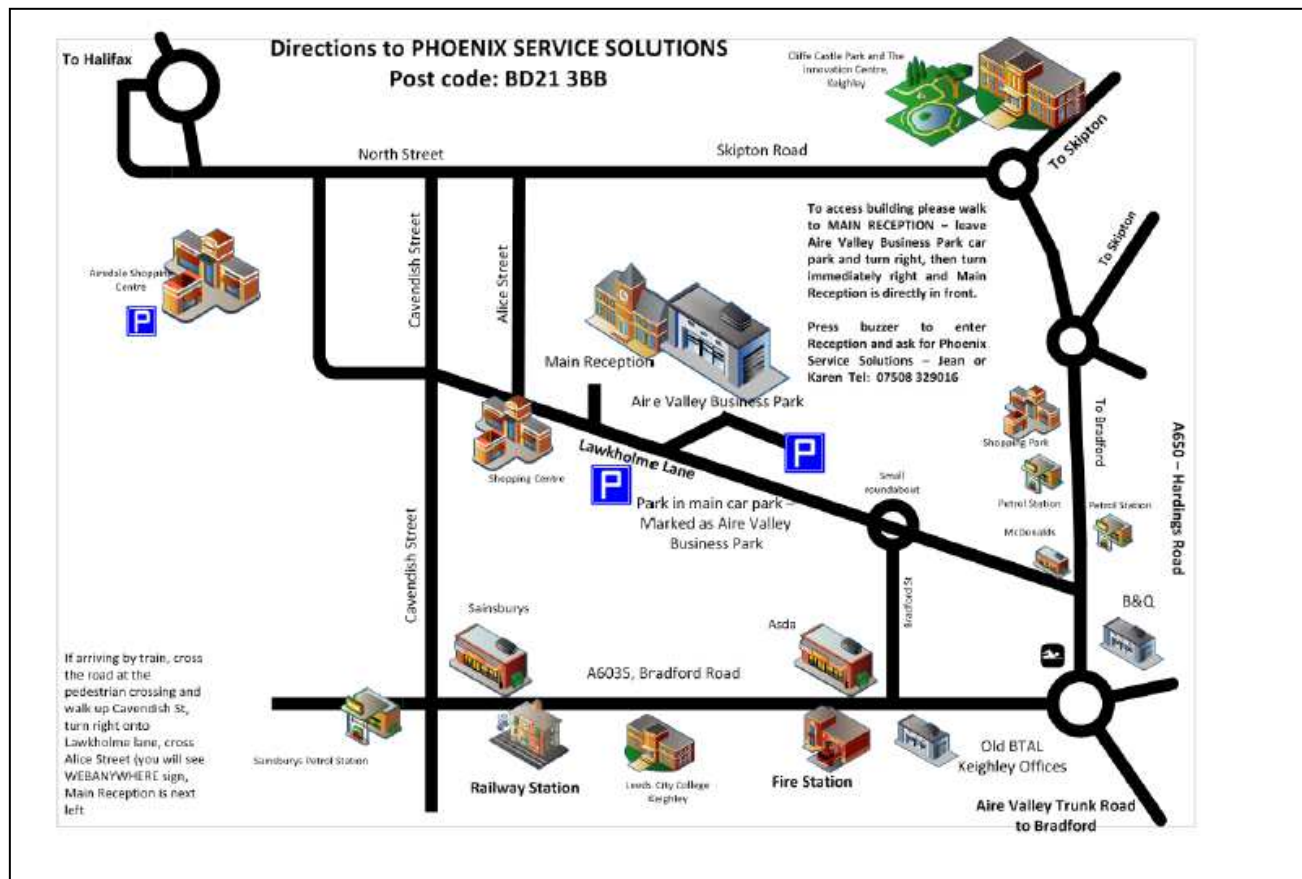

Join us for what will prove to be a fascinating historical talk on the development and use of machinery in this era.

**Prompt attendance for a 7.30 start is requested. We look forward to your company once again kindly hosted by Phoenix Service Solutions in Keighley.**
