

## Metals Casting Technologies, a talk by Malcolm Collins

Date: 27<sup>th</sup> February 2013  
Start time: 7.30 p.m.  
Location: Phoenix Service Solutions, Keighley (*see address details overleaf*)

Dear members and guests,

The Keighley Association of Engineers is pleased to announce its next event in the 2013 syllabus, a talk by Malcolm Collins who is the North East Branch Secretary for the ICME.

ICME is the Institute of Cast Metals Engineers, the Institute for all individuals involved in the castings industry and associated industries, founded in 1904. ICME Members include foundrymen, design engineers, metallurgists, moulders, patternmakers, CAD technicians, methods engineers, researchers, students and suppliers to the industry. The aim of the institute is to bring together people from all sectors and levels, to offer help and advice, provide technical support and professional development opportunities.

Malcolm has worked within this industry for “more years than he cares to remember” and has a wealth of experience to share with us.

We may know something about “cast Iron” but what about less mainstream casting materials and associated technologies?

Malcolm is travelling from the North East especially for this talk so please support the Keighley Association of Engineers to ensure we maximise the benefits of this opportunity.

Phoenix Solutions are again happy to provide the venue so please ensure prompt arrival for refreshments before the talk begins at 7.30 p.m.

**Expect an interesting, informative and entertaining evening in Malcolm’s company, you won’t be disappointed!**

### Address details:

with your back to Lawkholme Lane, Phoenix is to your right opposite to reception  
Phoenix Service Solutions  
Cedar House  
Aire Valley Business Centre,  
Lawkholme Lane  
Keighley  
BD21 3BB

### Location map:

Check out the Keighley Association of Engineers website for details of future events.

We have updated our website and shortened the address to [www.kaoe.org.uk](http://www.kaoe.org.uk) please visit the site to see the new look – you will see that we have added Face Book and Twitter links – hope some of you will use these.

One of the improvements to the site is much easier editing facilities. If you have any photographs of recent events which are of compact form and can be emailed to me please do that and I will make sure they go on the new site.

Contributions to forthcoming site visits and lecture opportunities may be posted on the website. We look forward to your feedback.
