

## Visit & Talk at GESIPA Blind Riveting Systems Ltd

Date: Tuesday 9<sup>th</sup> December 2014  
Start time: 7.30 p.m.  
Location: Keighley

**Dear members and guests,**

The Keighley Association of Engineers is pleased to announce its next event in the 2014 syllabus, a visit and talk at GESIPA Blind Riveting Systems Ltd, Keighley.

### Company History

GESIPA® was established in Walldorf, Germany in 1955, a company committed to developing improved blind riveting technologies. GESIPA® manufacture blind rivets at 5 manufacturing sites located in the United Kingdom, Germany and United States.

In 1975, GESIPA® revolutionized blind fastening with the introduction of GAV Automatic-Feed Blind Riveting System. GAV systems have set the standard for blind riveting efficiency. GESIPA installation tools are known for their high quality, durability and functional design.

Gesipa Blind Riveting Systems Ltd was established as a UK subsidiary for the German Gesipa Group in 1971 setting up its manufacturing base in Keighley, West Yorkshire. With the initial aim of providing German technology to the UK fastening sector it began its existence as piece part manufacturer but has evolved into a modern industrial production facility able to offer a full process from concept through to design, manufacture and testing in addition to standard off the shelf products.

Join us for a highly interesting and informative visit to this unique manufacturing site.

**Visitors are kindly requested to wear stout footwear or preferably safety footwear for this visit. Safety glasses are also a requirement. (KAE safety glasses are available, if required)**

**Please Note: Visitor numbers are limited to 20 persons so please contact Tim to reserve your place.**
