

Visit to the Keighley and Worth Valley Railway Engineering Workshops

Date: Wednesday 19th January 2011
Start time: 7.30 pm.
Meeting point: by the yard entrance

Please join the Keighley Association of Engineers in a unique opportunity to tour the main engineering workshop facilities at the Keighley and Worth Valley Railway, Haworth engine sheds.

The broad spectrum of engineering services at the Haworth based workshops include general machining, wheel drop facility, assembly roads over inspection pits, boiler washout, pump house and water treatment room.

The following interesting locomotive related reconstruction projects are currently underway at site:

- Midland 4F 0-6-0 43924 reconstruction well advanced, boiler recently fitted after repair at Crewe.
- USA S160 2-8-0 8758 locomotive partially rebuilt. Boiler undergoing extensive in house repairs.
- BR 4MT 4-6-0 75078 locomotive boiler recently away for repair. Work on motion in progress.
- Southern West Country 4-6-2 City of Wells locomotive in later stages of restoration.
- TVR 0-6-2T 85 locomotive in early stages of a major 10 year overhaul.

Other fleet locomotives will be in the shed undergoing scheduled maintenance. This will be an unusual opportunity for close inspection from within inspection pits with access to cabs and engine rooms possible as desired.

With the possibility to view locomotives at close hand in workshop pits it is recommended to wear appropriate attire complete with safety shoes and hard hats. Some PPE may be available at site but to be on the safe side visitors are kindly requested to bring their own personal PPE equipment if available.

Visitors to this event should confirm attendance to a Keighley Association of Engineers committee member complete with their mobile or home telephone number for contact purposes prior to the event.

Hope you can join us for a tour of this interesting facility? Please confirm your attendance as soon as possible to avoid disappointment and don't forget to include colleagues friends and relatives who may also be interested in attending this unique lecture / visit opportunity.

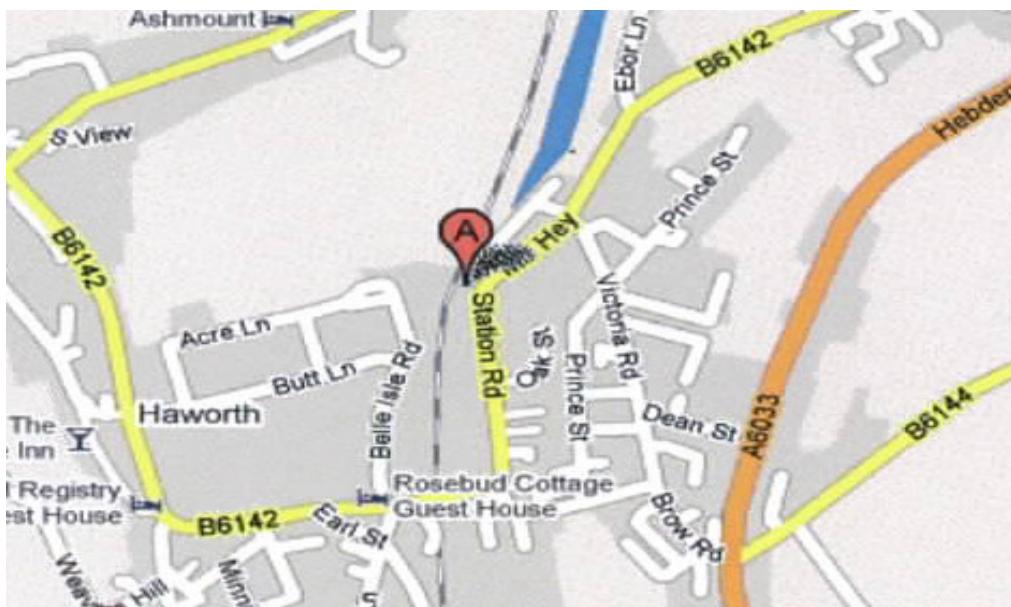

Travel and address details:

Keighley and Worth Valley Railway
The Railway Station, Haworth, Keighley, West Yorkshire BD22 8NJ
