

Lecture: **“Best Practice” Lubrication Application & Management**
Date: **Tuesday 22nd February 2011**
Start time: **7.30 pm.**

FOUNDED 1900

Don't expect your lubrication technician to sort out lubrication maintenance issues all by himself!

Common company problems....

- No lubrication management plan
- Fire fighting maintenance regime
- Time management issues
- Workforce skill deficiencies
- No asset register
- Limited lubrication “know how”
- Management cost-down pressures

It's not surprising that machine failures occur!

“We really need to make improvements but who can help us move things forward?”

Please join us for our first lecture of the 2011 syllabus which will be provided by Richard Atkinson, Head of Application Engineering, Kluber Lubrication (GB) Ltd. Richard has provided many lectures to the association over the years on a variety of interesting lubrication related topics.

In the scale of things, at most companies, day to day machinery lubrication is usually considered a fairly low priority. This said, individuals fail to realise just what an impact “best practice lubrication” can have on operational reliability, production output, product quality and not least customer satisfaction.

Today's lecture provides a practical insight into a range of common lubrication related tasks and how they can be improved, tasks such as:

- Storage and handling of oils and greases in an industrial and food processing environment
- How to lubricate, when to lubricate, how much lubricant to apply?
- Avoiding lubricant mixing and contamination
- Equipment labeling and visual management
- Lubrication audits
- Lubrication training
- Use of centralised lubrication systems and single point auto lubricators
- Lubrication of bearings, chains and gears ...

We hope you can join us for this interesting lecture and don't forget to invite colleague's friends and relatives who may also be interested in attending.

Travel and address details:

Keighley Training centre, (KADTAL) Universal Mills, Bradford Road, BD21 4BW (Tel 01535 607534)

Arriving By Car - From Bradford/Leeds

Follow A650. Turn left at A650/Bingley Road. Continue to follow A650. Go through 1 roundabout. At the roundabout, take the 2nd exit and stay on A650. Go through 2 roundabouts. At the roundabout take the 1st exit onto A6035/Bradford Road. Take the 4th turning left into The Keighley Training Centre, Universal Mills.

Arriving By Car - From Skipton

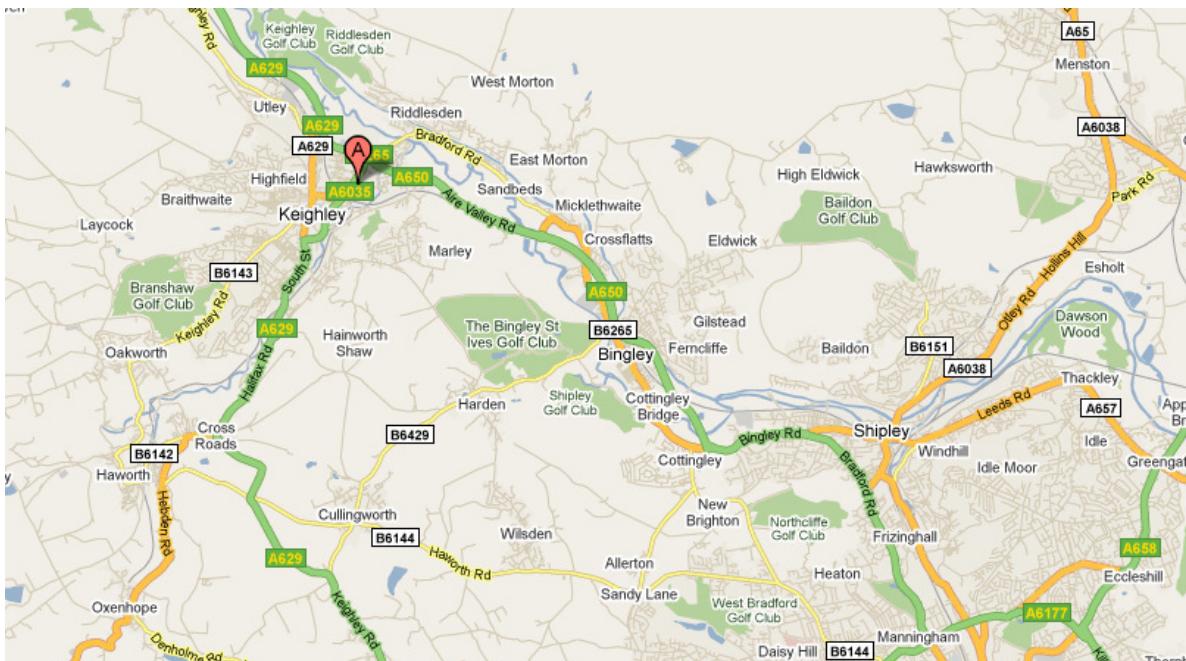

Head southwest toward Brougham Street. Continue straight onto A6069/Newmarket Street. At Caroline Square take the 1st exit onto A6131/Swadford Street. Turn left at A6131/Keighley Road. Go through 1 roundabout. At the roundabout take the 1st exit onto A629/Keighley Road. Continue to follow A629. Go through 2 roundabouts. At the roundabout, take the 1st exit onto A650/Hard Ings Road. At the roundabout take the 4th exit onto A6035/Bradford Road. Take the 4th turning left into The Keighley Training Centre, Universal Mills.

Arriving By Train

Turn right outside the Train Station, walking for approximately 3 minutes. The Keighley Training Centre is the 2nd turning on the right (first turning right after the Fire Station and before Towler & Staines).

Arriving By Bus

Exit Keighley Bus Station following the 'To Cavendish Street and Trains' sign. Turn right into Cavendish Street. At the bottom of Cavendish Street turn left onto Bradford Road. Cross the road at the first pelican crossing. Pass the Railway Station on your right, walking for approximately 3 minutes. The Keighley Training Centre is the 2nd turning on the right (first right after the Fire Station and before Towler & Staines)

Why not visit the Keighley Association of Engineers website for details of future events.
