

## Spooner Industries

Our December event will be a visit to Spooner Industries in Ilkley on Wednesday 8<sup>th</sup> December.

The Keighley Association of Engineers have been invited to visit the newly completed 4,500m<sup>2</sup> purpose built facility of Spooner Industries in Ilkley,

Spooner's offers unrivalled world wide experience drying, curing, proving baking and cooling for a wider variety of application including food, paper, converting, nonwovens and steel.

With over 75 years experience and state of the art equipment, Spooner is able to offer bespoke solutions from concept design through manufacturing to full installation/commissioning and now offers members a unique opportunity to see one of our local success stories first hand.

Further details will be distributed via a flyer shortly or alternatively watch the space for more information.
