Date: Saturday 22nd October 2017

Start time: 10.00 a.m.

Location: See below for instructions and the website (well worth a look)

<http://www.sunbridgewells.com/>

Dear members and guests,

The Keighley Association of Engineers is pleased to announce its next event in the 2016 syllabus, a unique visit to Bradford's very own underground retail Park before it's official opening.

From their website: "We are creating Bradford's first underground retail complex right in the heart of Bradford's historic trading quarter. With easy access from City Park and Sunbridge Road – Sunbridgewells will become a shopping and leisure area right in the centre of Bradford – linking the area from the new City Park to the Arndale Mall.

Our visit is timed just before launch (and hence why the short notice) so we can see some of the building problems they have encountered and question them on the project.

Where to meet: Assuming you come by car, park in pay and display Kirkgate Market Car Park – go to the bottom end of the market and turn right on Kirkgate – where that meets Sunbridge Road turn left downhill towards Bradford Centre – on the right hand side of the road as you go down is Tesco Express – go down the stone steps above Tesco and we meet at the bottom. If not by car just pick up these instructions from the bottom of Kirkgate Market.

Please contact John Pankhurst jpankhurst@totalise.co.uk home 01535 667218 mobile 07582 822922 to book your place so we can let our guides know how many are coming – guests are welcome.
