Keighley Model Railway Club

Saturday 20th April 2024

1.30 pm start.

BD21 1AG

FOUNDED 1900

Dear members,

The Association is pleased to announce that the Keighley Model Railway Club are hosting a visit for us at their premises on South Street, Keighley. Their Chairman, Charles Oldroyd, will talk to us about the club and show the Association around various club layouts. We will find out the difference between analogue and DCC control. We will see an alternative way to control points on a layout. You'll be able to ask those burning model railway questions where the internet just does not hit the spot. Charles will be talking about trains and layouts.

The event is open to members and members' friends. Children and Grandchildren are most welcome.

If you have not seen all that you would like to see during the visit, then you are welcome to stay and have a wander round afterwards.

There is an area that has tea, coffee, and seating.

Book your places with Council Member Richard Newsham

rdnewsham@yahoo.com

Address: Keighley Business Centre, Knowle Mill, 255 South St, Keighley, BD21 1AG. There is parking in the mill complex. There is a lift up to the top floor. It's an old lift. Both lift doors must be closed during operation of the lift and then after exiting the lift. You have to press the green button for the top floor.
