

FOUNDED 1900

Keighley Association of Engineers (2019 syllabus)

A visit to Ex-pressed Steel Panels

Date: Thursday 7th February 2019
Start time: 7.30 p.m.
Location: Cowling

Dear members and guests,

The Keighley Association of Engineers is pleased to announce our February 2019 event originally planned for 2017 , a visit to **Ex-pressed Steel Panels** in Cowling.

Ex-Pressed Steel Panels specialise in the manufacture of a wide range of discontinued and unobtainable classic car panels produced from the 1950s onward. This fabrication service is capable of producing hand-finished, made-to-order classic car panels from almost any original panel and can produce low-volume runs of any sheet steel or aluminium panels.

As this is to be a demonstration type visit in a small company we are limited to 20 maximum. Please book your place before the date by email, text or phone to

John Pankhurst, john@kaoe.org.uk , 01535 667218, 07582 822922

Ex-Pressed Steel Panels, Ickornshaw Mill, Ickornshaw, Cowling, North Yorkshire, D22 0DB tel 01535 632721.

<http://www.steelpanels.co.uk> see their demo video - its good!!!!

Going through Cowling from Keighley pass the main left hand bend at the top and take the next right hand turn down **Gill Lane**, The Company is on your left. However, there is no parking at the company so go a bit further on and park on the left hand side of Gill Lane before the first junction or on the right just beyond the junction. See attached map.
